## Alembic Pharma's Success Story With Vaultastic

### About Alembic Pharmaceuticals Limited

Alembic Pharmaceuticals Limited, an Indian pharma company established in 1907, are market leaders in the macrolides segment of anti-infective drugs in India. The company with 4 manufacturing facilities (3 API & 1 Formulation Plant) has a global presence in 75 countries through partners as well as representative offices in 7 countries. At Alembic, email forms the backbone of operations and is used to gather information which is related to major business activities spanning across departments from drug discovery to manufacturing, administration, hr and major customer support functions. Being in the pharmaceutical space, the company is bound by several regulatory and legal requirements, requiring them to keep a record of all documents in a reproducible manner for a minimum of 10 years.

#### THE CHALLENGE

Being in the pharma space, the company faces planned compliance audits once or twice a month, for which information needs to be retrieved quickly. The traditional methods that the company was using, which involved storage of email data on tapes and drives in premise, was growing in size year after year, posing challenges in terms of manageability, cost, ease and speed of data retrieval. The company was therefore on the lookout for a secure solution that could safely store all their email data as well as transfer any historical data that was previously stored on tapes and drives, along with an easy way to access any of these email on demand.

#### THE SOLUTION

Vaultastic seamlessly copied and moved over 25 TB of historical data to the cloud and keeps all mail online and search ready. The tamper proof vaults with a self service portal for end users to search and restore mail, has resulted in higher productivity. Role based access to ediscovery has allowed fast search and retrieval across mailboxes, for email from any period. Being on the cloud, Vaultastic has provided a robust and elastic solution to Alembic's ever growing email data. The solution with a high level of automation and guarantees on the service, allowed Alembic's IT team to focus on more strategic and infrastructure initiatives, supporting the organisation in its growth.

#### THE BENEFITS

##### Rapid Information Discovery

With all email across years, always online and search ready, ediscovery allows Alembic to rapidly search for specific email threads and discover valuable information.

##### Increased Productivity

The self service portal, allowing users to access their own vaults has helped increase the productivity of both the ends users and the IT Team.

##### Hands Free Scalability

Elastic compute and storage has made it easy for Alembic to manage their growing email data being ingested from newly integrated plants and organisation units.
